The designs in these examples are included in the Art and Stitch Library, folder Designers Collection

An asymmetrical triangle with the beginning and end point on the same horizontal line.

Repeated edge to edge

Two rows used as a border with mitered corners

Two triangles made into a block
Bottom triangle was rotated 180 degrees
(or mirror both vertically and horizontally)

Border example

4 Triangles made into a frame

Rotated 45 degrees

4 blocks combined

This triangle is almost the same as the previous one, except that the beginning and end points have been moved.

Triangle split in half

The 2 halves added to a complete triangle to make an edge to edge design.

Used edge to edge

4 triangles combined into one large block

The same block placed into the frame pictured on the previous page
